

Travel Insurance (for all of the ASAFAS Graduate Students and Research Students)

You must purchase an overseas travel insurance that covers the whole period of the itinerary (the period from the departure date of the place of residence in Japan to the date of returning home in Japan).

When the itinerary includes third country other than your home country, you must buy insurance with unlimited medical and rescue expenses.

You do not need to buy insurance with unlimited medical and rescue expenses when you only go to your home country, although you must still purchase the insurance that covers the whole period of the itinerary.

ASAFAS recommend the following three insurance companies which provides,

1)AIG

2) Gakkensai Futai-Kaigaku (Study Abroad Insurance coupled with Personal Accident Insurance for Students Pursuing Education and Research)

3) Tokio Marine & Nichido Chubb Travel Insurance
